# SPEEDIWEB SOLVES
THE DEMAND PRINTING PROBLEM

Moore Speediweb is a new computer formset that permits immediate removal and processing in demand printing applications. Speediweb is easily removed from the printer tractors while the next form stays in position. Simply grasp at the top and pull down and across. The forms you want come out while the margins remain in the tractors to advance the next form.

No forms are wasted, no time wasted realigning forms and strict numerical sequence is maintained. For samples of Speediweb return this reply card.
